Skills Canada NWT 2006 Territorial Skills Competition

Skills Canada NWT would like to invite you to the 8th Annual Territorial Skills Competition.

Show us your skills! Compete in the 8th Annual Skills Canada NWT Territorial Skills Competition in Yellowknife at Sir John and St. Patrick High Schools, the Kimberlite Career & Technical Centre, and the Akaitcho Trades and Technical Centre on April 20th, 2006. The competition is open to all NWT secondary and post secondary students, including apprentices, who meet the eligibility requirements. Select competition areas will also be open to Nunavut students where those areas are not offered through Nunavut's territorial competition.

As a competitor you will have the opportunity to:

- compare your skills to those of other northerners;
- experience the work environment of a trade or technology you are interested in;
- gain access to industry experts (who could become valuable future contacts);
- win medals and fantastic prizes; and
- represent your territory at the Canadian Skills Competition in Halifax, Nova Scotia.

The Competition

The Skills Canada NWT Competition is a one-day event that highlights trade and technology based careers, making them more visible and tangible for students, their parents, and teachers. It offers a venue for young northerners to showcase their skills in an Olympic-style skills competition. Secondary, post secondary, and apprenticeship students participate in 21 contests designed to test the skills required in trade and technology occupations, from Graphic Design to Cooking to Welding.

Gold medalists may be eligible to join Team NWT to compete against their peers at the Canadian Skills Competition in Halifax, Nova Scotia.

The Skills Canada NWT Competition allows competitors to communicate with industry experts who serve as mentors by demonstrating industry standards, advising on applicable skills and showing students that the skills they possess are valuable.

The philosophy behind the Competition is to:

- reward students for excellence;
- directly involve industry in evaluating student performance; and
- keep training relevant to employers' needs.

The Contests

Skills Canada NWT hosts 21 industry-sponsored contests represented by six industry sectors at both secondary and post secondary/apprentice levels. The Workplace Safety contest will also have a junior level for Grade 8 students. Contest will take place in Yellowknife at Sir John Franklin High School, its Akaitcho Trades and Technical Centre and St. Patrick High School, and the Kimberlite Career & Technical Centre. Exact locations of contests will be indicated on the morning of the competition.

The TV/Video Production contest will involve teams of two, whereas all other contests are single-person.

Contest criteria are set by industry experts and educators. Therefore, all contests are appropriate to the level of training and will reflect the industry standards. These standards, or “scopes” are defined for each contest and are accessible before the competition.

The contest scope sets out all the crucial information pertaining to each specific contest. It outlines the purpose of the contest challenge, the skills and knowledge required, the clothing and equipment requirements, and the names of committee members who developed the challenge.

The hands-on projects, if applicable, will be posted on the Skills Canada NWT website. It is imperative that all competitors review the scopes prior to the contest to understand the parameters of their particular contest.
